Robin and Mark Kabakow  
The David J. Kabakow Foundation  
PO Box 357  
Scotch Plains, NJ 07076-0357

Dear Robin and Mark,

I want to express my gratitude for your willingness to establish the David J. Kabakow Lectureship in Adult Hemophagocytic Lymphohistiocytosis (HLH) at the Brigham in memory of your son. I am moved by your generosity and commitment to ensuring that those diagnosed with HLH and their families receive the best care possible.

Thanks to your support, the annual David J. Kabakow Lectureship will provide important HLH educational opportunities for physicians, nurses, researchers, and trainees at the Brigham and in the wider medical community. Having this platform to teach and share research breakthroughs will help us to develop improved HLH diagnostics and therapies, leading to better outcomes for patients everywhere.

David's name will be tied to knowledge shared, collaborations established, and discoveries made because of this lectureship. Through educational outreach, we hope to transform the standard of HLH care at the Brigham and beyond. On behalf of my team and all those who will benefit from this lectureship, thank you for your generous support in memory of David.

Sincerely,

A handwritten signature in black ink that reads 'Nancy Berliner'.
